

#BeBoldBlueprint™

## ■■ BeBoldBlueprint™ Equity Quick Check Guide

### Purpose

A short reflection tool for school leaders to evaluate whether their systems truly create equitable college and career pathways for all students.

### Quick Check Questions

1. Representation: Do our most rigorous courses (AP, DE, honors) reflect the demographics of our school?
2. Access: Do all students — especially first-gen, rural, or under-resourced — receive the same information about college and financial aid at the same time?
3. Support: Do students who need the most help get extra advising, or do they get less because of workload and scheduling gaps?
4. Outcomes: Are our college-going and scholarship outcomes consistent across subgroups (race, gender, IEP/504, income level)?
5. Systems: Do we have a clear, schoolwide plan for postsecondary readiness, or are efforts left to individual teachers/counselors?

### Using This Tool

- Reflect individually or as a leadership team.
- Highlight questions where your answer is 'no' or 'not sure.'
- Use these insights to spark deeper conversations on equity gaps.
